

# INSTALLATION OF IBM CLOUD CLI

## STEP 1: Login to IBM Cloud

The screenshot shows the IBM Cloud Container Registry catalog page. The browser address bar displays `cloud.ibm.com/registry/catalog`. The page header includes the IBM Cloud logo, a search bar, and navigation links for Catalog, Manage, and Kavya S's Account. The main content area is titled "Container Registry" and includes a "View all" link, "Estimate costs" and "Get started" buttons, and a list of related links (API Docs, Docs, Terms). The page is divided into sections: Compliance (EU Supported), Summary (Manage Docker container images in a fully managed private registry), Features (Highly available and scalable private registry, Image security compliance with Vulnerability Advisor, Quota limits for storage and pull traffic), and Pricing plans.
